

Random Number Generator Certificate

This is to certify that iTech Labs has evaluated the Random Number Generator (RNG) by Skill On Net Ltd and found that the RNG complies with the relevant standards.*

Operator: Skill On Net Ltd

Operator URL: www.skillonnet.com

Software provider: Skill On Net Ltd

Software provider URL: www.skillonnet.com

The RNG uses a well-known algorithm to generate random numbers. The numbers generated by this RNG have passed Marsaglia's "diehard" tests for statistical randomness.

iTech Labs has evaluated shuffling for Single deck (without joker), Single deck (with one joker), Six decks (without joker) and Eight decks (without joker) for card games. iTech Labs has also conducted scaling tests for Roulette, Dice and Slots games.

The shuffling and scaling tests were conducted on large enough samples to give the calculations sufficient statistical power.

iTech Labs has found that the card and number sequences are unpredictable, non-repeatable and uniformly distributed.

The certified code for the RNG has been fingerprinted.

* The RNG was tested according to Ontario Registrar's Standards for Internet Gaming - 08 Feb 2022.doc.

Disclaimer.

While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs has conducted a level of testing appropriate for a component test of this type.
